## Solution summary (Abstract)

**Please describe your solution shortly (*Arial, 24 pt, Bold*): Summarize how this product/service is a solution to a certain problem in the sustainable transformation and qualify the importance of the problem within the specific field(s) of sustainable transformation.**

**The graphic or visual material on the left should emphasize or highlight the uniqueness of the project. The content is based on the individual uniqueness of the project and is therefore at the discretion of the author.**

## Further Material for Visualization

**Here, concept-supporting sketches or additional supplementary material for visualization find their place.**

**The quantity and content depend on the project and can be individually presented and arranged within this framework.**

**Margins and poster edge: 10 mm  
Spacing between images: 10 mm**

**The text provided here is solely for explanatory purposes.**

## Transformation Fields

**Please list here (*Arial, 36 pt, Bold*), to which field of transformation (up to three assignments possible) your solution can be assigned:**

**Nature,  
Resources,  
Society,  
Climate  
or Value Chain**
